OP320-A-S

Product description

3.7-inch Monochrome LCD,20 key-presses
Suitable for various PLC
Password protection and internal clock(Optional)
Text fairy, display dynamic text
Alarm information list, display current alarm information by items at real time
Key-press can be defined as function keys
With backlight STN LCD.

General Specifications

	Model	Kelly LCD
Display	Using life	Up to 20000，Ambient temperature 25，24 hours operation
	Display area	192*64
	Brightness	Can be adjusted by Potentiometer
	Language	Simplified Chinese/ English
	Character	Chinese: 16*16 32*3 English：8*16 16*32
	Key-press	20
Memory	Screen	64KBFlashROM
	Data	1KBSRAM
Interface	Download Port	RS232
	COM Port	RS485/RS232

Function Specifications

	Input Voltage	DC24V
Electrical Features	Voltage Range	DC22V~DC26V
	Current Consumption	<140mA
	Allowable Momentary power-cut	Less than 10mS（Actual power-cut less than 1 second）
	Voltage Endurance	AC1000V，less than 20mA for 1 minute
	Insulated Resistance	Above 10M，DC500V
Environment	Operation Temperature	0 to 50
	Storage Temperature	-20 to 60
	Operation Humidity	10%RH to 90%RH（No condensing, dry bulb）
	Interference Rejection	Noise voltage;1500Vp-p, Pulse cycle:1uS , Druation:1 minute
	Atmosphere	Free of corrosive gas
Structure	Cooling Method	Natural air cooling
	External Dimension	172.0*94.0*30.0
	Cutout Dimension	163*85

Dimension (unit: mm)
