

**Product description**

Integrate PLC and MP touch screen functions in one  
 The same PLC function as XC2 series, with faster speed  
 Color display area, support touch function  
 Removable terminal structure, easy to maintain  
 The key-press and mask can be replaced, suit for different occasions

**Features:**

1. XMP-32R/T = MP760 + XC2-32
2. Integrate PLC, HMI in one body
3. Digital Input: 16 points
4. Digital Output: 16 points
5. Extension function: can extend with analog and digital module(MA series modules can be used with XMP2-32 easily),meters, intervers,HMI,PLC,etc. via RS485 port.
6. Brief HMI edit interface with rich functions
7. LCD Display: 480×234 pixels (7"): LCD's using life can reach 50000 hours
8. 26 function keys; set functions freely, key-press is sensitive and precise
9. Support high-speed counter, high-speed pulse, interrupts
10. The program port is designed to have multi-function: use one cable to program both HMI and PLC program
11. Water-proof level fits for IP65
12. Compact structure, save great space in the electrical control cabinet
13. Simple and fashion appearance

**Specifications:**

<b>Screen Property</b>	Item	TFT true color 256 color LCD
	Screen Size	7 inch
	Using Life	Up to 50000 hours, ambient temperature is 25 degrees, 24 hours running
	Display Area	480*234
	Contrast	Modifiable
	Words Setting	Any language you want
	External Dimension	Any font, any size
<b>Memory</b>	Screen	4MB
	Data	256KB SRAM
<b>Port</b>	Communication port	Support RS-232/RS-485
	Download port	RS-232

Dimension (unit: mm)
