

XP3-WT-BD

Product description

Expansion BD board of XP-18/XMP2-32

It can test one channel of pressure sensor signal

It can test voltage signal of 0~39.0625mV

It can test one channel of temperature sensor (PT100) signal

Temperature precision is 0.1°C

Specifications:

Item	Voltage input	Temperature
analog input range	DC 0~39.0625mV	PT100 (2-wire)
digital output range	0~65535	-1000~3500
temperature test range	-	-100~350°C
resolution	0.596uV 0~40mA	0.1°C
transformation speed	20ms/channel	
Ambient	no corrosive gas	
ambient temperature	0°C~60°C	
storage temperature	-20~70°C	
humidity	5~95%	
storage humidity	5~95%
